

MORBARK® 30 CHIPARVESTOR®

BENEFITS

- The largest in the line, the Morbark Model 30 Chiparvestor is designed for power! This aggressive machine features a chipper disc that is 5" thick and weighs 8,000 lbs., making it perfect for the toughest of jobs.
- With an 83" disc and a four-wheel hydraulic feed wheel compression system, this machine is fully equipped to handle what you give it.
- Customizable options include a three-, four- or six-knife chipper disc, electronic RPM sensor, tri-axle, reversing fan, track option and many more, making it ideal for any of your needs.
- Like all Morbark equipment, the 30 Chiparvestor is a long-lasting, durable machine backed by a world-class parts and service support team.

Chipper Disc

Each disc is fabricated from plate steel and put through ultrasonic testing. Material certification is issued for each disc, which provides the best chipper disc in the industry.

Feed System

Powerful multi-wheel feed system provides positive feed of logs and tops for excellent chip quality.

Operator's Cab (RXL)

Roomy, climate-controlled cabs are equipped with comfortable seats, joystick controls and full instrumentation.

Chip Quality

Units produce quality chips even in non-merchantable and juvenile timber.
