JOHN DEERE

# Landplanes

LP72 | LP78 | LP84

## Specifications

- Worksite Pro™ Landplanes provide versatile, cost-efficient productivity for finish-grade work.
- Quik-Tatch™-mounted tool excels at slicing through sod, pulverizing dirt clods, transporting material, and screening stones and other debris from soil.
- Front and rear cutting edges allow controlled grading and leveling in forward or reverse. Use either or both edges to spread loose material and for quickly cutting or scraping hard pack without disturbing the base below.
- Multi-shank scarifier breaks up compacted soil; hydraulic activation is optional.
- Like all Worksite Pro attachments, these landplanes are optimized to work with John Deere skid steers and compact track loaders, and are compatible with most competitive models. Plus, they're backed by a one-year warranty and one-of-a-kind parts and service. See your local John Deere skid steer dealer for details.
